

Are you in the President's Club?

OPCMIA Members Wear Politics on Their Sleeve

As a union member, you know the importance of politics. You also know that getting a politician's ear and ensuring labor's voice is heard in Congress comes at a price. Sad but true: money talks! The OPCMIA can either play by the existing rules or sit the game out. You know we can't sit the game out, especially given the upcoming presidential election and politically active corporate elites with deep pockets. So this year we are going to fight back harder and smarter. To show you're "in our corner," we strongly encourage you to become a member of the OPCMIA President's Club.

The President's Club clothing line will enable us to strengthen our political activity. All profits from the sale of this clothing will be dedicated to the Political Action Committee (PAC). The PAC, in

turn, will advance the political interests of the members by supporting federal and state candidates for public office, and addressing other important political issues. PAC contributions are not tax deductible, totally voluntary, and have no impact whatsoever on your membership status. There are other ways to contribute to the PAC, and you will not be favored or disfavored by the union if you choose not to contribute through the President's Club.

The President's Club label was designed for two vital reasons: first, to more effectively convey the degree of our appreciation to members; and secondly, to enable members, by making a contribution, to be acknowledged for their invaluable political support. Join the President's Club today to become a member of a select OPCMIA fraternity supporting progressive political action.

9413—Micro Fibre
Wind Shirt, Unlined
